Governance, social, and environmental stewardship topics are front and center in many aspects of our work, from ensuring strong governance principles and a sound institution to developing our diverse workforce to supporting our communities. WesBanco is focused on addressing the sustainability issues that matter to our bank and our stakeholders, in a way that is aligned with our mission, ingrained in our people, and integrated across our company and throughout our corporate strategy.

We are committed to engaging with our stakeholders to share our progress and solicit their feedback on our priorities and strategy. We recognize the dynamic nature of these issues and will continuously review our strategy to ensure we prioritize the most important issues for our company and stakeholders.

Our Stakeholders

We believe in generating long-term value for all our stakeholders. We engage with our stakeholders in different ways throughout the year to understand how we can continue to best serve them.

Our Commitment to our Communities

Impacting Communities through Strategic Partnerships and Investment

At WesBanco, we strive to be a leader in community development by positively impacting the communities in which we live and serve. We have developed responsible strategies to provide targeted investment, deployment of capital, financial education, technical assistance, and innovative products and solutions that achieve financial inclusion for all. Our vision is to create greater economic opportunities that provide:

- The dignity of affordable housing;
- The empowerment of financial inclusion;
- The strength of successful businesses; and
- The sustainability of vibrant communities.

No matter the size of the community we serve, we are focused on helping all communities thrive and prosper by being a leader in community development. The foundation of our values is grounded in the belief that the success of our communities is fundamental to the success of our company. This commitment is demonstrated by WesBanco’s seven consecutive "Outstanding" Community Reinvestment Act ("CRA") ratings, spanning a period of more than two decades, which is the highest rating awarded from bank regulators for the Bank’s performance in meeting community credit needs. WesBanco’s Community Development team works throughout our footprint to assess the needs of the local communities and to develop products and strategies that are responsive to those needs. A Community Development Council is active in each of WesBanco’s nine retail markets to serve as a liaison between the local market and the Community Development team.

The WesBanco Community Development Team will identify and promote economic opportunities to enhance the quality of life across our footprint. We are committed to helping our communities succeed by being a leader in community reinvestment.

WesBanco Bank Community Development Corporation

An important part of our community development strategy is the activities of the WesBanco Bank Community Development Corporation ("WBCDC"), a WesBanco Bank affiliate and a certified Community Development Entity. The primary function of the WBCDC is to apply for and receive funds from the New Markets Tax Credits program, which are awarded from the U.S. Department of Treasury’s Community Development Financial Institutions Fund.

The program utilizes federal tax credits to attract private investment to highly distressed communities to promote community and economic development. The [WBCDC's "New Markets Loan Program"](#) is a revolving small dollar loan program that funds a variety of businesses providing critical social and commercial services to low-income residents and to benefit highly distressed, low-income communities. Funds have supported a wide range of businesses including manufacturing, food, retail, housing, health, technology, energy, education, and childcare. As evidence of the success and innovativeness of the New Markets Loan Program, the American Bankers Association Foundation honored WesBanco and the WBCDC with its 2021 Community Commitment Award in the Community and Economic Development category.

New Markets Loan Program Project – Outpatient Addiction Treatment Facility

The NMLP provided crucial, lower cost financing to fund tenant-specific renovations to a commercial property that would house an outpatient treatment facility in a rural community significantly impacted by the opioid addiction crisis. The new facility allowed the agency to expand its outreach to ~250 patients per week, or up to 13,000 patients annually. The total cost of the project was \$1.3MM with ~85% financed through the NMLP. The project created 58 new jobs and retained 32 existing jobs.

WesBanco . . . We Make Change

The “We” in WesBanco is symbolic of the commitment of our entire company – from our directors to each employee – to build strong, resilient, and vibrant communities. We recognize the importance of our role to responsibly reinvest the funds entrusted to us by depositors back into the community. We view our CRA responsibilities not just as obligations but as opportunities to leverage capital, resources, innovation, and financial expertise to positively impact our neighborhoods and the greater world in which we live. We have identified “5 Pillars of Community Development” that serve as the foundation of our efforts.

5 Pillars of Community Development

WesBanco logo and the text 'e Include'

A primary focus of our community development effort is to develop responsive and innovative products, programs, and initiatives to ensure financial and economic inclusion and to provide access to banking services for all consumers and business owners. We strive to ensure communities throughout our footprint retain access to the capital and investment that will retain businesses and attract residents. WesBanco’s loans and deposits reflect the markets in which we operate.

Ensuring Access to Banking Services

WesBanco employs ongoing evaluation strategies to assess that the locations of our banking centers are properly aligned to serve our customers’ needs most effectively. The Community Development Department monitors the branch distribution network to ensure that it reasonably aligns to area demographics, especially in low- and moderate-income areas, areas with highly diverse populations, and rural, underserved areas. In addition to our brick and mortar branches, we employ a number of alternative delivery mechanisms to serve our customers, including automatic teller machines (with access to thousands of surcharge-free machines), mobile banking, internet banking with online bill pay, person-to-person service, telephone banking, and bank-by-mail. Additionally, we offer online deposit account opening (checking and savings) and online mortgage and small business loan applications.

Proprietary Lending Products

WesBanco's *CRA Freedom Loan Product Suite* is designed with special underwriting criteria and reduced fees to meet the needs of low- and moderate-income borrowers and improve low- and moderate- income neighborhoods.

CRA Freedom Mortgage Loan

Helps borrowers achieve the dream of affordable homeownership. We allocate up to \$20,000,000 annually to fund this program.

CRA Freedom Automobile Loan

WesBanco also offers an *Amish Mortgage Lending Program* to assist those in the Amish Community who may be unable to be underwritten using traditional criteria due to the lack of credit score or other factors. Further, we offer the *WesBanco Weather and Storm Damage Loan Program*, which features a fixed-rate loan with no loan fees or closing costs, that is activated when severe weather and storms affect our communities, residents, and business owners.

WesBanco has received the America Saves Designation of Savings Excellence award for six consecutive years

Financial Education

Financial literacy is fundamental to eliminating the barriers that prevent financial inclusion for individuals and families. We rely on the expertise of our employees to provide financial education to students and adults, including homeownership counseling, credit, wealth building, budgeting, saving, financial exploitation and fraud, as well as topics of concern to small business. In addition to providing specialized curricula targeted to specific needs, we participate annually in the American Bankers Association's "Teach Children to Save" and "Get Smart about Credit" initiatives to deliver financial education to school classrooms. We supplement this participation with a School Savings Program, to encourage children to save.

Further, we offer the WesBanco Saves program, under the national "America Saves" initiative, to motivate individuals and families to save, build wealth, and reduce debt. This account earns interest and features no minimum deposit and no minimum balance as savers pledge to save regularly towards their own savings goal, e.g. an emergency fund, debt repayment, homeownership, or retirement. WesBanco also offers a number of free webinars on our website [\[here link\]](#) that cover a wide range of financial topics including avoiding fraud, financial wellness, life planning, growing a business, retirement planning, buying a home, and managing credit.

We generally invest in:

- Low-Income Housing Tax Credits ("LIHTC");
- State and local bonds;
- Mortgage backed securities;
- Equity investments including funds for venture capital;
- Equity equivalent investments that fund Community Development Financial Institutions ("CDFIs"); and

Additionally, as part of our overall investment strategy, we provide philanthropic donations to hundreds of worthwhile organizations throughout our footprint. These contributions provide critical support to address issues such as diversity and inclusion, employment, housing, education, financial literacy, healthcare, and community and social services including food insecurity and homelessness. We are especially proud of our participation in programs that provide impactful community and economic development to revitalize communities and neighborhoods. In addition to charitable contributions, through our corporate sponsorship program we provide sponsorships to local organizations and groups to support activities throughout our communities.

Community Development Example

Neighborhood Partnership Program (“NPP”) from the Pennsylvania Department of Economic Development. The NPP provides a multi-year donation to a non-profit organization working on a strategic plan that will improve the quality of life for the residents of a specific area targeted for revitalization. WesBanco has provided and funded NPP commitments totaling \$2.1MM for six communities throughout Western Pennsylvania. These funds build affordable housing, spur downtown development, construct community facilities, and provide community services to residents.

Through our commitment to Diversity, Equity, and Inclusion (“DE&I”), we pledge to (1) respect the unique contributions each individual brings to our bank and are committed to ensuring there is diverse representation at every level of our company; and (2) offer training and development opportunities to foster an inclusive environment where different backgrounds, perspectives, and experiences are valued and respected.

We continually look to welcome more diverse talent to join our WesBanco family. (data as of 12/31/2021, except Board diversity which is as of 4/20/2022; “key senior executive leadership” defined as the CEO’s direct reports and their direct reports)

During 2017, we introduced the WesBanco Women’s Symposium, an in-depth program that focuses on topics relevant to women within our organization. Through the symposium, participants have the opportunity to engage in education sessions, network and share experiences with peers and leaders across the bank, and identify mentors or informal career coaches. Approximately 600 female leaders and officers attend the symposium each year, and they have shared positive and appreciative feedback after each session.

Based on the success of our Women's Symposium, we introduced the WesBanco Diversity, Equity, and Inclusion Symposium during 2021. This program was designed to support racially and ethnically diverse leaders across our Bank, and focuses on education, self-development, and mentorship. The WesBanco Diversity, Equity, and Inclusion Symposium is inclusive to all diverse officers of the organization, and approximately 80 leaders and officers attended the inaugural symposium. These attendees shared positive and meaningful feedback that strongly supports the value of the Symposium's content across our organization.

During 2020, we established our DE&I Committee, which is responsible for setting the strategic direction of our DE&I program, defining program goals, identifying program initiatives, and holding stakeholders accountable for improving outcomes. This Committee is comprised of senior leaders across our firm, including our CEO, Group Head of Human Resources & Facilities, and Senior Vice President of Residential Lending, as well as one of our Directors. Furthermore, our Board of Directors reviews our strategy and related KPIs annually, demonstrating our commitment to DE&I at the highest levels of our organization.

Investing in Talent

At WesBanco, we invest in recruiting, developing, and engaging a diverse workforce that is committed to delivering for clients. Investing in our people is crucial to delivering on our promise of providing a better banking experience for our clients.

We invest in our talent in two key ways: recruiting dedicated and mission-aligned people to join our WesBanco family; and providing professional development opportunities that support our employees' professional growth.

Talent Attraction

WesBanco seeks innovative individuals who are committed to providing exceptional customer service. We provide opportunity for individual career growth with a competitive benefits package. We have developed several channels that support our recruiting efforts across our company and the markets in which we live and serve.

- Our most successful source for talent with the right skills and experiences comes from our current WesBanco team members, and our Employee Referral Program accounts for approximately 7% of our total new employee base each year.
- As young professionals have sought companies where they can grow and develop, we have developed our Bank Associate Program to offer candidates a 12-18 month career path development plan that includes opportunities to grow as a professional, broaden skills through continuing education, and rotate through various areas of the bank.
- We also offer both Internships to assist students with educational goals and college expenses, and Seasonal Employee Programs to maintain our exceptional customer service during the summer months and to identify future talent to join our family.

Talent Development

Our team always puts the customer first. In return, we support our employees' growth and development through education, training, and leadership opportunities. Investing in our people today supports the development of the Bank's leaders of tomorrow.

In addition to our leadership succession program, we also offer dedicated leadership development programs:

- Our Leadership Challenge Workshop which is an interactive, in-house workshop for high potential employees where they learn and discover in detail, the "Five Practices of Exemplary Leadership®", a proven model for developing effective leaders.
- We believe that our employees succeed when they are empowered by their leaders. Our WE SOAR training program (Welcome, Expectations, Success recognition, Opportunities uncovered, Action Step development, Reinforcement of best practices) was developed to help officers of the bank embrace a mindset of leading and coaching versus managing.

Education and Training

We strive to support all employees with opportunities for further training and education, as we believe that every employee should have the opportunity to increase their knowledge and skills to progress in their work. In addition to our internal talent development programs, employees also have access to courses and programs offered by the American Institute of Banking, our various state Bankers' Associations, and other organizations. To further support employees, we offer an Employee Educational Assistance Program to cover certain expenses pertaining to continuing education or development opportunities.

Employee Health and Well-Being

We believe that in order for our people to succeed professionally, we also must support them and their families personally.

We offer a comprehensive and competitive benefits program that includes, among other benefits, medical, dental, and vision insurance; flexible spending plans; transportation benefits; retirement savings plan; and a generous PTO policy, including “floating holidays” and “rejuvenation days”. In addition to our benefits, we offer a Health & Wellness Program that supports employees in making healthy choices in their work and home lives.

WesBanco Health & Wellness Program

Through this program, we:

- Encourage habits of wellness and increase awareness of employee choices toward their own and their families' well-being
- Provide annual health screenings and opportunities to earn a discounted health insurance employee premium
- Offer access to free counseling sessions
- Provide access to a Health and Welfare Advocacy Program
- Offer reimbursements for fitness programs like race entrance fees or athletic competitions

As WesBanco continues to move forward with our adaptation of a flexible workforce, we have endorsed a primarily remote workforce for the support areas of our organization, either 100% remote or a hybrid (office/at home rotating) schedule. This has added to the quality of life for our employees, presenting increased employee satisfaction with their work / life balance and has also had a positive effect on our overall carbon footprint.

We are always looking for great talent to hire across our footprint. We encourage you to visit our [Careers](#) website. We look forward to welcoming you to the WesBanco family.

Our Commitment to Environmental Stewardship

Environmental Stewardship

WesBanco is focused on demonstrating our commitment to being good stewards of the environment and of our clients' financial wellbeing.

As a community-focused bank, we care not just about offering the best banking experience to our customers but we also care about strongly supporting them and our shared communities to help ensure their long-term success. This includes doing our part to minimize our environmental impact and operate in a reasonable and responsible manner. Across our footprint, we are working hard to reduce the impact of our operations. Today, we have several programs that play an important role in helping to reduce our carbon footprint.

Energy Efficiency and Waste Management

Across our company, we are continually adopting more energy efficient practices. We have installed LED lighting, which use less energy than traditional light bulbs, in all of our new buildings and remodels, and are transitioning the remainder of our locations, in particular external lighting which generally consume more energy than interior lighting. We carefully balance the age of existing lighting and the desire to install LED lighting in order to minimize electronic-related waste and ensure good stewardship of our shareholders' capital. Through the last few years we have converted nearly 30% of our facilities to LED lighting, and will continue to convert more as we remodel our locations. In an effort to minimize energy needed to light our office and retail spaces, we are designing buildings to maximize natural light. This design focus also creates a more employee-friendly work space, as studies have shown that greater exposure to natural light in offices can improve employee satisfaction and productivity. In addition, we are committed to spending approximately \$1.5 million this year on energy-efficient HVAC capital improvements.

“Conservation and rural-life policies are really two sides of the same policy; and down at the bottom this policy rests upon the fundamental law that neither man nor nation can prosper unless, in dealing with the present, thought is steadily given for the future.”

-- Theodore Roosevelt
(8/27/1910)

We continue to evaluate and adapt our branch strategy, taking environmental impact into consideration. Our new financial centers have reduced square footage of approximately 50%, as compared to our legacy facilities, and increased technology offerings, allowing us to serve our customers in a more operationally and environmentally efficient manner. While continuing to serve our customers effectively across our markets, since December 31, 2018, we have reduced our financial center footprint by 17%.

WesBanco has focused on the utilization of technology not only to drive operational efficiencies but to enhance our efforts on environmental stewardship. For more than ten years, we have extensively used video conferencing to reduce travel, and time away from home, for our employees. We have used our cloud-based technology platform to build scalable infrastructure and implemented thin-client technology throughout our company thus eliminating the need for most desktop and laptop computers.

We have significantly expanded our array and availability of digital products and services which allow our customers to open accounts, apply for loans, purchase insurance, make deposits, utilize P2P payment technology, and much more, either online or via their mobile device. Reflecting the strength of our digital offerings, since 2019, we have seen an 11% reduction in transactions conducted across our current financial center footprint. Besides allowing customers to engage with us at times that best fit into their daily schedules, this increased utilization of our digital offerings minimizes the environmental impact associated with their having to travel to one of our financial centers to conduct their financial transactions.

While WesBanco operates in a primarily digital format, we have adopted practices to limit the impact of printing and use of paper when it is necessary. Through Hewlett-Packard's "Planet Partners", we purchase exclusively recycled printer toner, as well as recycle the toner cartridges when they are depleted. We also encourage our employees to actively participate in our corporate-wide recycling efforts. We place a heavy emphasis on recycling any paper used, and continue to evaluate and identify new opportunities to further improve our energy efficiency and waste management. We have eliminated non-recyclable and non-environmentally friendly supplies from the employee break areas across our footprint; and, have significantly increased usage of "green" office supplies.

The adoption of a flexible workforce has assisted our efforts for employee satisfaction, long-term sustainability, and reducing our overall carbon footprint. As of December 31, 2021, half of our total workforce, including approximately 75% of our operational support areas, were in either a 100% remote or hybrid (in-office/at-home rotating) schedule, which has added to the quality of life for our employees and increased employee satisfaction with their work/life balance. Our flexible workforce directly correlates with a decrease in our carbon footprint related to carbon emissions from a reduction in employee commutes to the office, and the reduction in our in-office presence positively impacts our greenhouse gas emissions, office waste, building and supply usage, electricity consumption, and water usage.

Our Commitment to Business Integrity

Governance

WesBanco is committed to maintaining strong corporate governance practices that allocate rights and responsibilities among stockholders, the Board of Directors and management, in a manner that benefits the long-term interests of the Corporation's stockholders.

Our long-term growth strategy is built upon one of the strong legacies of our franchise which is maintaining our strong culture of credit quality, risk management, and compliance – principles upon which our company was founded more than 150 years ago. Furthermore, our strong corporate governance practices serve as the foundation of our commitment to our communities and people.

WesBanco's corporate governance practices are designed not only to satisfy regulatory requirements but to provide for effective oversight and management. Our Board of Directors, as well as management, regularly evaluate our structures, processes, and policies to promote accountability and ethical behavior. More information on our strong governance practices and Board of Directors may be found on our [Investor Relations webpages](#).

Doing Business with Integrity

WesBanco has implemented an enterprise risk management ("ERM") framework to identify and manage our risk exposures while maintaining a safe and sound banking organization. Included in this framework are three independent lines of defense, which allows WesBanco to effectively govern and manage risk. Our Enterprise Risk Management Committee manages our ERM framework and meets quarterly with WesBanco's management team. In addition to reviewing current risks, the Committee reviews emerging risks that have been identified through peer interactions, media, regulatory examinations and pronouncements, legal updates, and other sources.

- Comprehensive “risk appetite” statement
- Independent Chief Risk Officer
- Independent Chief Internal Auditor
- Strong Board of Director oversight

Overseeing the risk management process is one of the Board of Directors’ most important responsibilities. The Audit Committee has a primary role in risk oversight, and the Board has also established a separate Enterprise Risk Management Committee. The Board’s Risk Management Committee consists today of five directors, including the Chair of the Board and the Chair of the Audit Committee. The Committee meets quarterly to review the Risk Management department’s assessment of WesBanco’s risk profile.

Information Security and Data Privacy

WesBanco relies on information systems and communications for operating and monitoring all major aspects of business, as well as internal management functions, and is committed to ensuring the security of customer personal and financial information. Under the leadership of our Chief Security Officer and Chief Information Officer, WesBanco has implemented policies,

procedures and technical safeguards designed to prevent or limit the effect of any failure, interruption, intrusion or security breach of its information systems. To best protect the Bank and our customers, we regularly work with third parties to assess our security systems and implement new information security tools to address these dynamic risks. We participate in periodic information security testing with various expert third parties.

Our Board of Directors is highly focused on the risks technology poses to the bank and our customers. The Board regularly reviews reports from our security team that include current controls in place, updates to controls and policies, emerging risks, and performance against related KPIs.

A vital component of our information security program is ongoing education and training for the end users, including our employees and our customers. A key part of our customer education is our “[Security Center](#)” prominently located on our website. Within the “Security Center” we provide information on alerts, common scams, and tips to secure yourself from attacks and transact safely in a digital banking world. **Remember: WesBanco will never ask you to send personal or financial information by, in response to, or via a link in an email or social media posting.**

Business Ethics

Business ethics is more than just doing things the right way – it involves professionalism, integrity, and respect. WesBanco’s commitment to business ethics is governed not just by our corporate policies but also by our “Better Banking Pledge” and “Service & Support Pledge”, which are posted in all of our locations.

Our [Code of Business Conduct and Ethics](#) was formulated to identify laws and regulations and establish the Bank’s guidelines and policies concerning some of the most common and sensitive business activities. It is expected that all employees comply with the Code, and training to ensure their understanding and adherence to the Code is conducted annually. The Code addresses, among other things, the handling of confidential information; conflicts of interest; gifts and entertainment; use of position; board responsibilities; discrimination and harassment; insider trading; and health and safety.

- The Enterprise Services Policy governs our project management process and includes guidelines for requests for proposal and vendor selection for significant initiatives.

Our strong legacy of risk management, regulatory compliance, and credit quality has been the foundation of our company for the last 150 years, and will be for the next 150 years.
